SUGGESTION AND ACHIEVEMENT AWARDS COMMITTEE

11 AUG 1977

MEMORANDUM FOR: Chairman, Fine Arts
Commission

SUBJECT : Suggestion No. 77-293

1. In reference to your 12 July 1977 note, this suggestion cannot just be dropped. Civil Service Commission rules state that a suggester's rights to an idea are not terminated with resignation/retirement. The only requirement is that the suggestion be submitted while the person is employed by the government; and [REDACTED] was an employee at the time of submission.

2. [REDACTED] checked with our office regarding the status of her Suggestion No. 77-293 prior to her departure. She clearly had the understanding that her suggestion CAUSED SOME ACTION.

3. Your memo of 26 July 1976 to [REDACTED] and her formal suggestion submission of 11 February 1977 (copies attached) clearly indicate to the Committee's Staff that [REDACTED] was the first to have something in writing on this subject and is deserving of recognition. Also, from the statement in the last sentence of paragraph 1 of the FAC Minutes of 28 January 1977, (copy attached), it seems recognition is due her. On the basis of that statement and anything else you may wish to convey to us at this time, I would have no problem recommending an award of at least \$100 based upon HIGH/LIMITED Intangible Benefits on the attached guide sheet.

4. We do not need a unanimous vote from FAC to take award action. A recommendation from you as Chairman will suffice.

As you know, [redacted] seems to have had some influence in triggering a wall mural idea for Headquarters Building areas. Later, she submitted the attached suggestion STATINTL 11 February 1977.

Obviously, [redacted] idea had to be accepted before the competition could be started. Therefore, it appears as though she had an advisory role.

Would appreciate your recommendations as to the level of award believed warranted for this employee and the amount you recommend. Usually, we apply the Intangible Benefits Guide scale attached herewith. STATINTL

Graphic Murals/Wall Designs for Hallways and Corridors

SUGGESTION NO.

77-293

PRESENT METHOD

New idea - not presently utilized.

I SUGGEST

Large graphic designs be painted in the long hallways and corridors of the Headquarters Building. Utilizing the 12 "standard" colors in the graphic designs to bring about fluidity and congruity of color scheme between the hallways and the colored doors.

NOTE: This suggestion has already been presented and accepted by the Fine Arts Commission to the effect of initiating an Agency-wide competition for a graphic design. (See attachments)

ADVANTAGES

The designs would break up the length of the corridors and make the space more pleasing to the eye; more attractive working environment.

SUBJECT

: Graphic Mural for the Ground Floor
Tunnel Area

1. As I mentioned to you the other day, Jack Blake feels this is a good idea and certainly supports the concept.

2. Attached is a copy of a notice that might be submitted to announce the competition. There are certain things not included; for example, the actual painting to be done on an overtime basis, although there is no predisposition toward having the artists work for nothing. It is possible that, depending on the size and complexity of the mural, the painters could wind up making more money on an overtime basis than the prize-winning designer. The Fine Arts Commission might, at least, want to discuss the actual painting of the mural. Also, Jack indicated he is inclined to prefer a second and third prize, in the order of \$100 for second prize and \$50 for third prize.

3. I am sure that, after discussion at the FAC meeting, changes in the notice might well be necessary, and it certainly would cause no problem for us.

COMPETITION FOR DESIGN OF LARGE GRAPHIC MURAL

1. The CIA Fine Arts Commission is sponsoring a competition for the design of a large graphic mural. The objective is to add color, warmth and visual excitement to the drab Headquarters ground floor tunnel area and to encourage and utilize creative design talents.
2. All Agency employees, except members of the Fine Arts Commission, are eligible to participate in the contest. Entries should be submitted in full color on prepared scale drawings of the wall to be decorated. Those interested in participating should first obtain technical data by calling [REDACTED] STATINTL. Completed entries should be submitted to the Chairman of the Fine Arts Commission, 6G 00 Headquarters, no later than 29 April 1977.
3. Designs will be judged and the winners selected by the Fine Arts Commission with outside assistance of graphic consultants. The originator of the design selected will be nominated by the Fine Arts Commission for a \$500 honorarium under the Agency's Suggestion and Achievement Awards Program. Appropriate recognition will also be recommended for second and third place winners. Production of the mural will be supervised by the

winning designer.

HEADQUARTERS NOTICE

1. To add color, warmth and visual excitement to the drab Headquarters ground floor tunnel area and to encourage and utilize the creative design talents of Agency employees, the Fine Arts Commission and the Honor and Merit Awards Board are sponsoring jointly a competition for Agency employees to design a large graphic mural to decorate the area.

2. The competition is open to all Agency employees except members of the Fine Arts Commission. Entries should be submitted in full color on prepared scale drawings of the wall to be decorated. Designs will be judged and the winners selected by the Fine Arts Commission with outside assistance of graphic consultants.

3. The mural will be produced under the supervision of the winning designer. Execution of the mural will be by volunteers from Agency graphic shops who will be paid overtime for their work.

4. Those interested in participating in the contest may obtain technical data by calling [REDACTED] Completed entries should be submitted to the Chairman of the Fine Arts Commission, 6G00, no later than 1 March 1977.

STATINTL

★ 6. Supergraphics

STATINTL [REDACTED] Environmental Committee Member, displayed some sample designs suggested [REDACTED] to bring color to the long white corridors at Headquarters. [REDACTED] would make up the designs and paint them on the walls [REDACTED] using the 12 standard colors. There was some discussion of the best locations to try out such a program if it were implemented; the one that seemed most attractive to the group was the "tunnel" entrance on the Ground Floor.

[REDACTED]

7. Report from [REDACTED]a. Poster Originals

STATINTL [REDACTED] reported that she had not yet permanently installed any of the 50 Poster Originals prints purchased for display in public areas. However, several have been hung on a temporary basis in the Executive Dining Room; others will be rotated into the Dining Room after about a month.

b. Standard Carpet Tile

STATINTL [REDACTED] displayed a sample of the proposed new standard carpet tile, a loop carpet which is not expected to absorb as much dirt as the current one. The new carpeting has been installed on a temporary basis in Room 1J27 Headquarters (Credit Union space where the EAA store used to be). [REDACTED] asked that the FAC members take a look at the new carpeting before the next FAC meeting, so that we can vote on whether or not to switch to it.

c. Rehabilitated Furniture Program

STATINTL [REDACTED] discussed the current contract for the rehabilitated furniture program, which involved painting grey metal desks either black or white and cementing on formica tops and reupholstering chairs, indicating that the work was unsatisfactory and slow. She presented a proposal to switch companies, and showed a sample of the desk top it would use. The new company will be able to do the work in place; the only drawback is that it cannot do chairs. The Commission recommended that [REDACTED] look into contracting someone to reupholster the chairs before changing companies.

MEMORANDUM FOR: [REDACTED] DDI/D/GCR
[REDACTED] Fine Arts Commission

STATINTL

FROM : [REDACTED] DDO/EUR [REDACTED]
[REDACTED] Environmental Committee Member

STATINTL

SUBJECT : Proposal for Wall Designs in the Offices
and/or Hallways

1. In the minutes of FAC's meeting of 29 April 1976, items 8 and 9 concerned solutions to wall decore. If in fact, as stated in item 9, the number of standard paint colors is to be reduced, I propose that, should there be any excess of this "discontinued" paint, it be used to paint graphic designs in the long empty hallways and on large spans of plain wall space frequently found in the offices. By using the leftover paint, we would avoid costly waste.

2. It is the responsibility of the Environmental Committee to produce better working surroundings for all employees by utilizing the supplies at hand, if possible. An attractive office makes for a better atmosphere to work in...better atmosphere, better output. These graphic designs would also bring about fluidity and congruity of the colors now being used on the doors, as some of these same colors would be used in the designs.

3. With the purchase of the new "Poster Original" posters, item 8 in the minutes of FAC's 25 March 1976 meeting, for the reception areas; pictures and wall hangings for the public areas and front offices; I feel that the addition of a few of these graphic designs in the hallways and/or offices will suffice in contributing to the welfare of the other offices which might otherwise be missed in the redecorating procedures currently in progress.

4. Attached is a copy of a leaflet containing information about wall graphic designs and a designer, Tom Ewell, who can be contracted to carry out such projects.

STATINTL

SUBJECT : Proposal for Wall Designs in the Offices
and/or Hallways

REFERENCE : Your Memorandum of 22 June 1976, same subject

1. Thank you for the suggestions in your 22 June memorandum.
2. On 8 June, the Fine Arts Commission withdrew its recommendation to reduce the Building Standard Paint Colors. The company which supplies the paint has replaced all substandard colors.
3. I have referred your suggestion concerning 'Super Graphics' to [REDACTED] in the Logistics Services Division. She is presently exploring the possibility of putting large graphics into one or two public areas. Putting permanent graphic designs on office walls is not practical because of the amount of space reconfiguration that takes place in the building.
4. The Fine Arts Commission is hopeful that, with the resources and expertise of [REDACTED] and the enthusiasm of people like yourself, all offices will be included in the current effort to provide a more enjoyable working environment.
